STORAGE TANKS

14700 Industry Circle
La Mirada, CA 90638
Office: 714-226-1914
Sales: 714-489-8512

Superior Storage Tank is the ideal supplier for all your liquid storage needs. We are the premier custom designer and manufacturer of single-wall, double-wall, rectangular, cylindrical and specialty tanks for liquids. Established in 1946, manufacturing steel tanks for over 66 years.

Our specialties include Underwriters Laboratories, Inc.-listed tanks (UL-142), custom-built and standard tanks from one to 4,000 gallons, catwalk, mixing and bench-style tanks, push cart, truck and trailer tanks, as well as multiple compartment tanks – all available in both hot-rolled mild steel and stainless steel. We also provide custom, environmentally-friendly powder coating services.

With more than 10,000 tanks in service, Superior Storage Tank is ready to meet all your UL-listed and Non-UL needs from our standard line of tanks below 2000 gallons to our large tanks (up to 4,000 gallons) and our custom tanks.

We also feature a full line of top quality accessories and truck tanks to give you full-service and convenience.

Superior Storage Tanks manufactures double-wall storage tanks that meet all UL-142 specifications and provide leak containment construction for compliance with regional environmental regulations including LAFD. Tanks are constructed of commercial quality A36, hot rolled steel, blasted and powdercoated for a superior finish.

Superior Storage Tanks provides rectangular single-wall storage tanks that meet all UL-142 specifications as well. Constructed of commercial quality A36, hot rolled steel, blasted and powdercoated for a superior finish. They provide a perfect solution were regulations that do not demand double wall containment.

We also manufacture basins, oil caddies, sub base tanks as well as a custom size to fit your needs. For Basins, Superior Storage Tank manufactures them to hold 110% of the tank capacity for all standard and custom size cylindrical tanks.
